Vista

Available
this summer.

Great sound has a whole new look

Introducing Boston Vista Series Loudspeakers—our best performing, best-looking products. Vista delivers a home theater or audio-only experience. Innovative driver and cabinet designs yield exceptional sonic characteristics. Each Vista Series model is voiced to blend with the others so they can be combined to deliver the best performance in any configuration.

Dispelling all notions of the typical loudspeaker “rectangular box,” Vista Series models all feature elegant piano lacquer finish cabinets and high-gloss furniture-grade end panels. And further reflecting the seamless merging of art and science that defines Vista, the structural elements of the cabinets are made of high-frequency-molded MDF with “wave like” curved surfaces that reduce internal standing waves and panel resonances. Additionally, substantial internal bracing enhances the strength of the cabinets to provide an ideal environment for high-performance sound.

Key features

- Super Wide Bandwidth (SWB) Tweeter featuring a Coupled Dual Concentric Diaphragm (CDCD) minimizes phase shift and distortion while improving pistonic motion. (except VPS 210)
- Organic Composite Cone Material (OCCM) was developed using a mix of select natural fibers to reduce resonance and improve accuracy.
- High-frequency-molded MDF cabinet features curved surfaces, which reduce internal standing waves and panel resonances.
- Bi-amp, Bi-wire capability (VS 336 and VS 325C)
- MagnaGuard® video shielding
- Gold-plated 5-way binding posts
- Elegant lacquer piano finish cabinet
- High-gloss multi-layer furniture-grade end panels

VS 336

3-Way Triple 6½”
Floorstanding Loudspeaker

VS 325C

3-Way Dual 5¼”
Center Channel Loudspeaker

VS 260* and 240

VS 260 2-Way 6½” Bookshelf Loudspeaker
VS 240 2-Way 4½” Bookshelf Loudspeake

VPS 210

10” High-Powered Subwoofer
500-watt RMS 1800-watt Peak Proprietary
Class-D Amplifier
